On July 19, 2014 @ 7AM three men representing two 501c(3) non-profit organizations based in Old Saybrook, CT set forth to swim over 4 miles in order to raise funds and awareness about the missions of their companies. David M Shearer, MD from the *Therapeutic Research Foundation*, Paul Kwaseniewski from *Veteran's in America* and John Gavin Jr a sprint triathlete participated in an extreme swim beginning at Rocky Neck State Beach proceeding around the Black Point and ending in Niantic State Beach at the 'Hole in the Wall'. The distance measures 4.73 miles. Quite a feat and much deserved accolades! The three swimmers were kept safe on the water by watch from Captain Stefan Golicz and Dorothy Shearer, MS, RN. All proceeds from the event will go toward research and development of biotechnology related solutions (www.tr-f.org) and purchasing/ training of service dogs for veterans (www.veteransinamerica.org). *Donations are welcome.* Please make checks payable to: 'Dare to Reach' Fundraiser, 25 Saltus Drive, Old Saybrook, CT 06475 or online on the websites listed above via PayPal. Thank you.
